no better place to heal...
Our mission is to inspire the people we serve to realize their greatest potential.
We believe that providing the right treatment, at the right time, in the right environment provides the greatest hope of recovery.

No better place to heal…
Rainbow’s Continuum of Care allows us to treat adults and children in our residential homes, outpatient treatment centers, the client’s own home or in the community. This wide ranging Continuum provides the flexibility needed to develop individualized programming for every person we serve, utilizing the right setting in conjunction with state-of-the-art techniques and equipment.

No greater hope of recovery…
In order to fully implement flexible, individualized programming, we employ and retain outstanding health care professionals who provide unmatched quality care to our clients.

No finer promise of achievement…
The goal for every person we serve is reintegration into the community at the highest level of independence possible. For our clients to achieve this promise, we believe that dignity and respect are the basic foundations of care at every level of the organization, and that ongoing encouragement and support helps those we serve to realize their greatest potential.

No greater hope of recovery.
No finer promise of achievement.
Rainbow employees receive regular training in:
› CPR
› Crisis prevention
› First aid
› Medication administration
› Behavioral support services

Continuing education and routine competency assessments provide ongoing opportunities for improvement.
Excellent staff translates to excellent care.
Rainbow’s atmosphere of mutual trust and respect allows us to attract and retain quality, caring staff through every level of the organization.
Rainbow has a commitment to training and investing in people. This dedication confirms our commitment to provide the highest level of care and customer service.
Our in-house staff of highly trained and experienced professionals include the following:

Rainbow is committed to training and encouraging the development of **Certified Brain Injury Specialists** within our company and throughout the industry.

“If you want the best, come to Rainbow! On a scale of 1 to 10, the therapists are 15s!”
— Dan Darga, Parent of a Client
Far more than a collection of programs, Rainbow offers a Continuum of Care that provides unparalleled flexibility in progressing clients to their maximum level of independence.

**NEUROREHABILITATION**
Rehabilitation is not one-size-fits-all. Clients in the NeuroRehabilitation Program participate in highly individualized, intensive treatment that incorporates a vast array of professionals who provide the tools needed to maximize client progress.

Clients are challenged to achieve their goals and are given daily opportunities for success. Core therapies help them to gain mobility, master activities of daily living and safely explore their communities. Regular team meetings, inclusive of client and family, are held to review progress and develop new treatment goals.

**NEUROBEHAVIORAL**
Rainbow’s NeuroBehavioral Program provides a unique care option for clients when moderate to severe behaviors interfere with the goals of therapy and community re-entry. This program is directed by a Ph.D.-level psychologist and a team of mental health therapists, substance misuse specialists, behavior analysts and other staff trained in behavior reinforcement techniques. Principles involve positive reinforcement, peer mentoring and modeling.

Educational support and vocational training are provided when appropriate, and opportunities for transition to increasingly less structured environments are encouraged as clients learn and maintain new skills.

**NEUROMEDICAL**
Injuries can be complicated by medical needs requiring specialized care. For these individuals, we are more than rehabilitation service providers or caregivers—we are advocates for the improvement of health and wellness, both physically and emotionally.

The NeuroMedical Program can often mean earlier discharge from the hospital, a reduced need for subsequent hospitalizations and easier management of medical conditions. The nursing staff works closely with the client’s doctors and other health care professionals to provide appropriate, high-quality medical care with the focus on meeting the changing needs of the client.

**PEDIATRIC**
The needs of children are quite different from those of adults. For this reason, Rainbow’s Pediatric Program is set apart from other programs. Key elements are:

- After-School and Saturday programs
- Day treatment
- Tutoring and educational support
- Therapeutic summer program
- Interpersonal skill building
- Leisure education

A team of pediatric specialists provides age-appropriate therapies and guidance.

**YOUNG ADULT**
This program is designed to assist young adults in gaining meaningful employment and developing the skills to initiate and maintain relationships. Fundamental components of the program are educational support, learning work skills and job coaching assistance.

Both the Pediatric and Young Adult Programs are led by a Ph.D.-level pediatric psychologist and are located in an excellent school district near abundant community resources.
No finer promise of achievement…

RAINBOW U® DAY TREATMENT
A therapeutic approach to day treatment for residential and outpatient clients, Rainbow U includes core therapy along with a wide variety of elective activities that clients choose for themselves. Over 90 courses each quarter such as Photography, Book Club, Cooking Skills and Dealing With Loss keep clients motivated to participate.

Participants in Rainbow U earn U-Points for participation and achievement which can be redeemed for rewards like gift cards or concert tickets. Each participant also receives an achievement report at the end of each quarter to help them stay in touch with their goals.

SEMI-INDEPENDENT LIVING
The Semi-Independent Living Program is designed to support personal independence. Graduated levels of supervision are provided, and clients advance to increasingly less-structured settings as goals are achieved. This program offers a safe and supportive environment as clients take the last critical steps toward independence.

Treatment is focused on:
- Meal planning
- Grocery shopping
- Budgeting
- Vocational skill development
- Problem solving
- Household chores
- Behavioral control
- Interpersonal skill development
- Medication management

VOCATIONAL REHABILITATION
In order to help our clients enter or re-enter the work community successfully, we've established a comprehensive vocational program for adults and teens. Many of our clients earn a wage working at our supported employment facilities or in area businesses that share our recognition that everyone has something to contribute to the community.

Jobs and training program areas include administrative work, light assembly, hospitality, customer service, manufacturing, warehousing, sales, recycling, landscaping, farming, vehicle detailing and packaging.

HOME AND COMMUNITY
The Home and Community Program provides ongoing individual therapies, nursing services, personal care, and training in activities of daily living such as meal preparation, shopping, money management and community access. These services help maintain the success achieved after leaving our residential settings, following hospital stays or when participating in home-based therapy programs.

The Rainbow team works with the client and family to develop a plan of care and implement the programs needed for successful independent living. Clients participating in Home and Community Programs have ready access to an entire team of rehabilitation professionals and treatment resources.

“I didn’t just need rehab, I needed ‘super rehab.’ Being at Rainbow helped me to heal and regain my strength.”
GLEN HANSEN, CLIENT
More than 35 living environments give Rainbow the capacity and flexibility to quickly place virtually any client into the right residential environment based on age, gender, functional level and behavioral status.

“The people here make you feel like their life is second to yours. I’ve never experienced anything like that.”

DAVID ABRAMS, FORMER CLIENT
In order to achieve maximum effectiveness, our professionals provide therapy in a variety of environments including our treatment centers, residential homes, vocational settings and in the community.

**NEUROREHAB CAMPUS®**
For individuals who require significant medical attention, Rainbow offers fully accessible, private rooms and an onsite treatment center at its NeuroRehab Campus® in Farmington Hills, Michigan.

A team of rounding physicians including physiatrists, psychiatrists, internal medicine and podiatrists regularly visit the facility. Nurses, respiratory therapists, and trained rehabilitation assistants lead the care program and are available either on-site, on-call or around the clock.

Physical therapy, occupational therapy and speech & language pathology are available individually and in groups. Mental health services, recreational therapy and massage therapy are available as well. Residents at the NeuroRehab Campus have full access to Rainbow U with courses offered on campus or at the nearby Farmington Hills Treatment Center.

**RESIDENTIAL HOMES**
Rainbow therapeutic homes are located in desirable neighborhoods, and provide easy access to schools and community resources. Over 30 barrier-free homes feature private bedrooms and spacious, shared living spaces for meals, recreation and family visits.

All Rainbow residences are supervised by a team of caring, trained staff on a 24-hour basis, and all have 24-hour on-call nursing and mental health services.

**APARTMENTS AND TOWNHOUSES**
Rainbow's apartments and townhouses make it possible for individuals to live on their own with varying levels of support. Located near public transportation, colleges and universities, shopping and many other community resources, these semi-independent living options allow residents to participate in local communities.

Many of the apartments have been modified for wheelchair accessible living, and some offer the unique opportunity for clients with children or families to share the same comfortable setting.

**TREATMENT CENTERS**
Rainbow’s spacious treatment centers are located in Genesee, Oakland and Washtenaw counties. They offer a host of treatment and activity spaces including:

- Comprehensive therapy gyms
- Individual treatment rooms
- Fully equipped weight/fitness rooms
- Gymnasium
- Computer labs
- Therapeutic swimming pools
- Activity centers
- Therapeutic kitchens
- Woodshop
- Greenhouse
- Libraries

**VOCATIONAL CENTERS**
Vocational centers in Ypsilanti and Farmington provide functionally appropriate work opportunities. Facilities feature include:

- Wheelchair-accessible buildings and grounds
- Private and shared work areas that simulate real-world working conditions
- Individually designed assistive technology and tools
- Woodworking shop
- Career exploration center
- Training rooms

**IN YOUR HOME AND COMMUNITY**
Rainbow is committed to providing continuing care in a manner that allows individuals to enjoy being home with family and friends. It is our desire to assist our clients in reaching their goals for independence in the home and community.

Our exceptionally trained staff can provide supportive services throughout Michigan in virtually any setting.
Services

OUTPATIENT TREATMENT
Rainbow provides outpatient services to clients who are living in their own homes and wish to participate in rehabilitation programs uniquely tailored to their individual needs.

Activities are designed for therapeutic benefit and skill development. As is the case in our residential programs, outpatient clients are evaluated and receive treatment according to a customized plan of care developed by a team of Rainbow professionals in coordination with the client’s goals and the treating doctor’s prescriptions.

TRANSPORTATION
Rainbow offers transportation services through it’s wholly owned subsidiary, Rehab Transportation®. More than a ride, Rehab Transportation’s drivers are trained in caring for individuals with special needs.

Rehab Transportation offers competitive rates, on-time service and comfortable, secure vehicles. Drivers can even offer care before, during and after transportation. A complete range of services are available throughout Michigan.

Rehab Transportation can assist with all of your transportation needs, including:
- Physician appointments
- Therapy appointments
- Airport service
- Errands
- Special occasions
- Clinic visits
- Area hospitals
- Shopping trips
- Family events
- Sporting events

SHORT-TERM STAY
From time to time, families may need a place for loved ones to come to receive care on a temporary basis. For those times, Rainbow’s Short-Term Stay service is the right choice to provide day, overnight and/or extended care. Contact us if you need this service for:
- Family respite
- Waiting for home modifications
- Surgery recovery
- Wound care
- And other occasions a short-term stay is required

“Bless you each and every one for giving me back my old life.”

BETTY KORTE, FORMER CLIENT
Established in 1966, CARF (Commission on Accreditation of Rehabilitation Facilities) is an internationally recognized accreditation authority promoting and advocating for quality rehabilitation services.
